

Jump into jumpers

7) Jump into the hottest look of the summer with the season's newest wave of jumpers. Jumpers are a chic way to cover up your bikini after a dip in the pool. They're easy to get on and off and roomy in the tummy to flatter most figures. Covering up just got hotter.

Sun kissed Goddess

8) Embrace your right to bare arms! Summer is all about keeping it fun and casual. For a no fuss look that is sure to bring the heat every time; opt for a flattering tube top and your sexiest jeans. Add a little bronzer to your shoulders and décolletage and you'll look like a sun kissed goddess.
